

GAS DETECTION

Control units and sensor/transmitters for continuous monitoring of combustibles gases, toxic gases or oxygen. ATEX approved sensors and RINA / MED approved systems for marine applications.

Gas Detectors

4-20mA transmitters for combustibles gas, oxygen, toxic gases detection, ATEX approved

Explor Gas Point
stand alone gas detector with built-in pump, large display, 4-20mA output

Explor Gas Screen 40

control unit, 4 channels, large colour touch screen display, Datalogging and WiFi options
